Dear Ms. Coggins,

Further with regard to my Facsimile message on 4 February 2008 and 29 March 2008, I wish to inform you that, due to the approaching end of the term (with extensions) for responding to the Final Rejection, a Continuation application has been filed as of yesterday by Express Mail, and a request for Extension to (third month) reply has been filed via Express Mail (copy included). In the above-referenced application Thus the present application should not become abandoned until 28 May 2008.

As previously mentioned, I feel I must at all costs maintain the 'status' of the inventors. The Continuation application includes corrected formal drawings, and its claims have been amended. Filing the Continuation Application preserves the inventors' filing and Priority dates, but NOT the question about a "National Application"; that issue remains unsettled and will continue to add to the cost burden of the inventors.

In view of the foregoing, could you call me or set a date for me to telephone you, so we can discuss when, or if, I might expect a response at least to my original Request regarding "National filing."

Respectfully submitted,

Joseph G. Nauman
